## EVALUATION CRITERIA

### A. Product Reliability

#### 1. Vendor / Product track record

Samsung has a good product track record.

---

---

---

#### 2. Vendor support required

---

---

---

#### 3. Ease of use

---

Samsung Chromebooks are easy to set up. You login to your Gmail account to  
to use the device.

---

---

#### 4. Support required by RIC / school district

User will obtain their E-mail and browser account information from district  
tech support before using the device.

---

---

---

#### 5. Potential to become "White Elephant"

---

---

---

---

6. Training requirements

Gmail

---

---

---

---

B. Product-Price / Acquisition

1. Cost effectiveness

Costs are similar to other chromebooks.

---

---

---

2. Acquire via NYS Contract or local bid

---

---

---

3. Cost of operation and support

Samsung pick up and return service contract with ADH Insurance - extended  
service agreement - 1 year \$ 44.88

---

---

---

---

4. Do any legal or contractual issues exist

---

---

---

---

C. Product-Relationship to Other Standards

1. Compatibility to existing Standards

They are very similar to other chromebooks accepted by the Standards Committee. We had good luck purchasing the chromebooks, they all worked when they came in and customer support has been great.

2. What other options are available

Acer Chromebooks

HP Chromebooks

3. Relationship to previous research and changes since that time

D.

BOCES-Service Needs

1. Define and explain the current need

We would like the option to purchase the Samsung Chromebook under the BOCES co-ser because they are easy to set up, reliable and have great customer support.

2. What existing CoSer and RIC Service does it fall under

Instructional Servcies under the Common Set of Learning Objectives COSER

3. What is the scope and size of the school population to be served

730 students

4. Instructional and/or administrative goal supported

Faster connectivity means more time for instruction and homework assistance.

5. Results of survey determining school district interest in using this product

Signature of person making request

### PRODUCT OVERVIEW

## Product Features

### The New Samsung Chromebook

For Everyone. The Samsung Chromebook is a new computer that helps you get everyday things done faster and easier. It starts in seconds, has virus protection built-in, and runs your favorite Google apps plus thousands more. The Chromebook comes with leading Google products, like Search, Gmail, YouTube and Hangouts, so you can work, play, and do whatever you want, right out of the box.

### Introducing the new Chromebook

Chromebooks are easy to use, and don't slow down over time. They have built-in security, so you're protected against viruses and malware. They come with apps for all your everyday needs, and keep your files safely backed up on the cloud. And with free, automatic updates, your Chromebook keeps getting better and better.

### Automatic Updates

Chromebooks automatically update themselves: all of your apps stay up-to-date, and you get the latest version of the operating system without having to think about it.

### Get Started Without the Setup

Chromebooks require almost no setup, so you can go from unboxing to doing in minutes. Unlike other computers, you don't need to spend hours installing patches and software.

### Portable, Powerful, Cooler

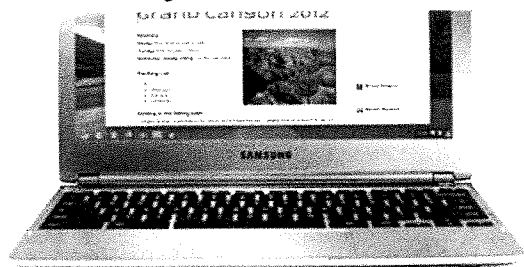

The Samsung Chromebook's dual core processor delivers exceptional performance and battery life in an ultra-slim package. And unlike traditional computers, it has no fan or moving parts, which means it stays cooler on your lap and runs silent (no humming, unless you're listening to music).

### Stay Connected In-Flight

With your Chromebook, you can get online at 10,000 feet with free Gogo in-air internet passes. Your Chrombook comes with 12 free passes (estimated \$150 value) that you can use over 2 years on domestic US flights.

### Collaborate on Documents

Create documents, spreadsheets, presentations, and drawings with apps like Google Docs, Zoho and SlideRocket. With productivity apps, you can collaborate in real-time with others, access your documents from any computer, and have your files backed up automatically. Access other everyday files using the built-in PDF and document viewer.

### More Storage in the Cloud

With 100GB of free Google Drive storage for two years, you can keep your apps, documents, favorites and settings safe and securely accessible from anywhere. You don't have to bother downloading and installing any applications onto your hard drive.

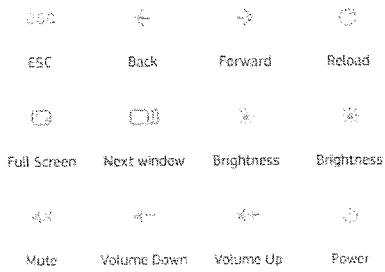

### Oversized, Multi-Touch Touchpad

You can enjoy better control using a large multi-touch touchpad. With an image sensor it provides a stylish and convenient way to use your Chromebook.

### Full-Size Keyboard Designed for Chrome

The keyboard is optimized for Chrome with a dedicated search key, a row of web-enabled keys, and a comfortable, full-size layout that doesn't cramp your fingers.

### Simply More Flexibility

The Chromebook has a range of ports, including HDMI and USB 3.0/2.0 ports, to enable greater flexibility for sharing data and multimedia playback. Its unique hinge design makes it easier to connect all of your peripherals.
